## HARRITY PATENT ANALYTICS RELEASES 2018 TOP PATENT FIRMS LIST

WASHINGTON (February 21, 2019) – [Harrity Patent Analytics](#) is pleased to announce the publication of its annual list of top patent law firms. The 2018 edition of “[Top Patent Firms](#)” ranks the top patent law firms based on the total number of U.S. utility patents issued in 2018.

“In 2018, more than 300,000 patents were obtained by over 2,000 different law firms,” said [Paul Harrity](#), a partner at Harrity & Harrity, the parent law firm of Harrity Patent Analytics. “Our goal is to raise awareness of the top law firms handling patent work in the U.S., and recognize the professionals that play a vital role in protecting intellectual property.”

Top Patent Firms only names patent firms that have obtained at least 50 utility patents where the patent firms are listed on the front of the utility patents. Company legal departments are not eliminated during data analysis.

The 2018 list is comprised of 722 total law firms. The full list is available here <https://harrityllp.com/services/patent-analytics/top-patent-firms-2018/>.
